Createspace, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.A politically incorrect journey into the workings of the brain that reveals the reason the mental health profession, religion and new age philosophies can do more harm than good. This book is written for you. It is about you. It is about every human being on this planet. This book is about your brain and the tricks it plays on you. Not cool party tricks of the Chris Angel Mind Freak variety, but rather the fundamental dirty tricks of the brain which represent the Big Bang Level. Their impact on humanity is comparable to the splitting of the atom - both wondrous and horrendous. These tricks underlie and impact all we know - everything that has been written about, claimed, or posted as truth. I am not a new age radical, or some political rat-bag out to undermine or push a political agenda. With thirty years of psychology practice under my belt, I want to expose the flaws in our current system and show how humanity has been duped by the brain. A word of warning - in this book I touch on many raw or sacred issues. Past and present, political, cultural, religious, ideological or social issues are challenged. You will wonder why I appear to take on the world and strip it bare. Why don't I just stick to exploring and explaining the brain? It is impossible to discuss the brain, and the tricks it plays, outside of the world it has allowed us to create. Stripping the world of its layers of man-created belief systems is essential. By getting back to basics we can expose the brain's dirty tricks and reveal a core...
