Some are positive, and others are not. In *Now is the Time for All Good Men to Come to the Aid of Their Planet*, author J. Theo Olonia discusses how, with awareness, we can weigh our actions for the consequences and impact they have on the environment and on life in general. Olonia shows that health and well-being in the future are affected by today's choices. He: ? presents a scientific view of the creation of the universe, describing the formation and evolution of the solar system; ? explains the evolution of our home world through four and a half billion years, including the evolution of humanity; ? describes how wild places are in serious decline and the adverse affect it has on indigenous wild life; ? addresses how we are controlled by our social order, which directly affects the choices we make with respect to the environment; ? discusses the modalities that helped turn his life around, making him more aware and conscious of every aspect of living; ? reviews some of the possible outcomes based on today's choices; an ? offers a new concept of how to relate to Earth-Mother. *Now is the Time for All Good Men to Come to the Aid of Their Planet* communicates that how we relate today sets the historical course of being stewards of our world, taking what we need with awareness and gratitude, but also giving back to maintain a sustainable, viable world.
