This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

In the mental clinic, therefore, we deal with patients whose symptoms require for their understanding a study of the personality and of its problems. Mental disorders are not disorders whose symptoms necessarily are mental, but whose roots are mental, that is whose roots cannot be understood without studying the patient in his complete human relations. The symptoms may be insomnia, or headache, or vomiting; they may consist of a paralysis or a tremor; they may be limited to an apparent blindness or deafness or dumbness; and yet the disorder may be a mental disorder because its roots lie in the difficulty the personality has in its adjustment to the situation.
