DICTIONARY OF BUILDING PRESERVATION

John Wiley & Sons Inc. Paperback. Book Condition: new. BRAND NEW, Dictionary of Building Preservation, Ward Bucher, Most historic buildings are owned by private citizens who have little or no background in building preservation or its allied fields. These owners--as dedicated as they are to preserving or refurbishing their property--often feel at a disadvantage when communicating with professionals well-versed in the complex jargon of this multidisciplinary field. The Dictionary of Building Preservation provides easy access to this terminology and helps the nonspecialist to understand and communicate with building and design professionals, preservation groups, government agencies, attorneys, and others concerned with building preservation. Containing more than 10,000 entries that cover the entire breadth of building preservation in North America, this is the best source available for definitions of terms used for buildings, parts of buildings, the development of historic structures, technical standards, relevant legal terminology, and preservation practice. It provides detailed information on various historical styles and fashions, structural, mechanical, and electrical systems, and current restoration techniques. In the Dictionary of Building Preservation, readers will find straightforward definitions that include preservation context, word origin, and national and regional vernaculars. Many terms that do not appear in any other dictionary. Cross referencing that allows readers to move from the general to the specific or vice versa. Nearly 400 illustrations--many rare-edition prints and line drawings from the Historic American Buildings Survey as well as first edition Architectural Graphic Standards technical drawings. Both modern and obsolete spellings along with an indication of the period in which the term was most commonly used. Compiled by a practicing restoration architect, this is the ideal reference resource for owners of historic homes, preservationists and restoration consultants, architecture buffs, urban planners, land-use attorneys, architects and architectural historians, and anyone involved in building renovation, community preservation, or landmark designation....
