Palgrave Macmillan, UK, 2007. Hardcover. Book Condition: New. Dust Jacket Condition: New. First Edition. 352 Pages. NEW. This volume demonstrates that phonology is a subsystem of the mind/brain and explores the theoretical and practical (including medical) consequences of this insight. Written by American and European specialists at the cutting-edge of research in areas ranging from phonetics to neurology, the book addresses central questions relating to the cognitive status of phonological representation and phonetic implementation and the links between mental and physical representation of sound systems. Book Description: This volume demonstrates that phonology is a subsystem of the mind/brain and explores the theoretical and practical (including medical) consequences of this insight. Written by American and European specialists at the cutting-edge of research in areas ranging from phonetics to neurology, the book addresses central questions relating to the cognitive status of phonological representation and phonetic implementation and the links between mental and physical representation of sound systems. : About the Author: Jacques Durand is Professor of Linguistics in the English Department of the University of Toulouse-Le Mirail and a member there of the CNRS team: Equipe de Recherche en Syntaxe et Smantique, where he leads a phonology team.
