Excerpt: . . . 11 velopment program on thermal storage could significantly accel-erate the use of this promising technology. Another key area for improvement of CSP is water use. The cur-rent design of large CSP plants use water simply for cooling a power plant in the same way that water is used for conventional power plant cooling. Though CSP technology has been successful with its current water cooling approaches, growth in the desert has placed ever-increasing demands on water use and reductions in water use would increase the attractiveness of CSP. On the third topic relating to CSP of the study of integrating large CSP plants into the regional and national electric grid, it is true that planning for CSP does raise numerous issues including the availability of land, land-use issues such as water and permit-ting, and increasingly, the...
