Does it matter if you re not sure of your novel s genre? How much detail do you need for world building? What s the difference between First and Third Person? Is there guidance on how to structure a story? What s a character arc? How do I write a synopsis? There are guides and rules that will answer the above, but you might not find them all in the same place. This book gets to the point - in a simple way. There s no room for complicated jargon or theory. What do you need to know, and how should you apply it? Creative writing is about building on an idea, creating great characters, twisting a plot, gripping the reader, and giving life to a world. Words are the life of stories.
